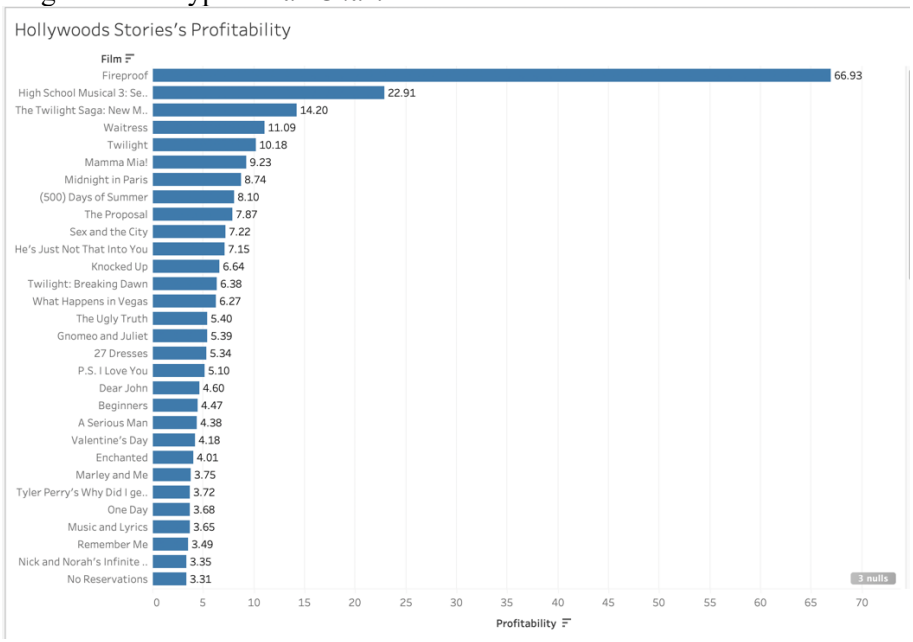
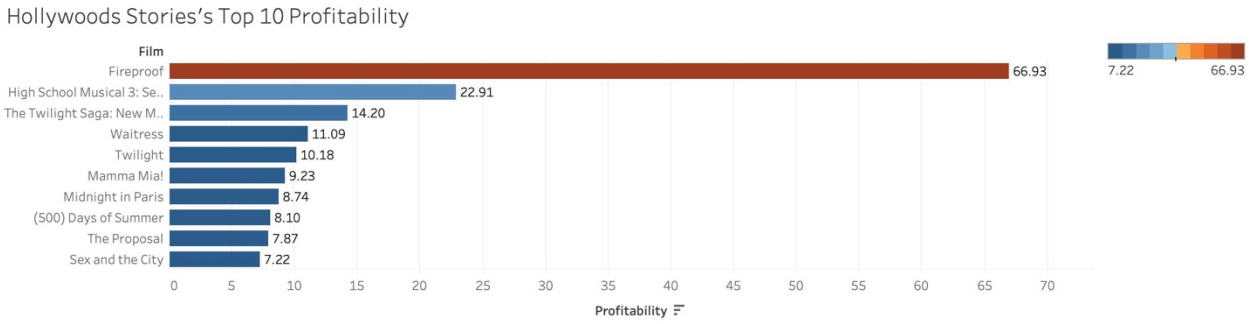
Figure 1
Original Chart type: <*Bar Chart*>



Refined Chart type: <*Bar Chart*>



Sum of Profitability for each Film. Color shows sum of Profitability. The marks are labeled by sum of Profitability. The data is filtered on Profitability, which ranges from 7.22 to 66.934.

How to read it and what to look for (Refined Chart type):
First, look at the title of the chart to know what this chart represents
The x-axis is the name of films, and the y-axis is the profitability
The length of each bar and the longer bar represent higher profit
The color shows the different range of the profit
Look at the hierarchy of each bar, from top to bottom the profitability decrease
